## Hesitation

(hichkichahat) हिचकिचाहट

Hesitation is a common problem while you speak any language of the world. Being a new learner you may also face some hesitational problem but it is natural, nothing to worry.

### Some wrong notions about hesitation —

1. Unable to speak properly before somebody is **hesitation**.
2. Fear of speaking incorrectly and facing a wrong impression is **hesitation**.
3. Unable to speak fluently is **hesitation**.
4. You may have a wrong impression that your conversation partner is more educated than you and you may make a mistake during conversation.
5. No proper knowledge of Hindi language.
6. Lack of confidence during Hindi speaking etc.

**but all above are not hesitation.**

### Then what is hesitation ?

Hesitation is a common feature of any spoken language including Hindi because when somebody asks the question then we have to think to choose the right word, pronunciation etc. for giving an answer and it takes some time. The fluency of conversation stops for a moment and we think this interruption is hesitation.

Just think that how it is possible to give the answer without planning or without thinking.

Can we plan our answer in advance? No, not at all. First we will have to listen to the question carefully then we can plan a right answer and obviously it takes time and it is a natural phenomenon for any language learner. We have to think or prepare the answer on the spot i.e. during the conversation.

Sometimes you try to avoid speaking to hide your hesitational problem because it will make a wrong impression that you don't know much about the language but it is not the right way. Actually you are getting stuck not because of lack of knowledge, you are planning your proper answer.

### How can you get rid of hesitation ?

Try to speak in Hindi as much as possible. Only proper practice can reduce the time which you take to prepare an answer and you can answer promptly.

While you get hesitated during conversation, just take a pause so you may arrange and energise yourself and your views now you can speak more confidently. So go ahead.
